king swings

COMMERCIAL

Designed for Play. *Built for* Communities

At King Swings, our mission is to unite communities through play by providing cost-effective playground solutions, expert guidance, and flexible options tailored to your needs. Whether you're building for a school, park, church, or HOA, we're here to help you create a space that's safe, beautiful, and built to last.

- **FLEXIBILITY OF OPTIONS** Choose between **COMMERCIAL PRO** for ASTM-certified playgrounds and **COMMERCIAL FLEX** for customizable, budget-conscious designs—each built with the same level of care and quality.
- **PERSONALIZED, EXPERT GUIDANCE** Our team works with you from start to finish, offering clear, professional support throughout the design, ordering, and installation process.
- **AMISH CRAFTSMANSHIP, MADE IN THE USA** With over 35 years of experience, our family-owned company combines modern design with the unmatched durability and safety of Amish-made craftsmanship.
- **AESTHETIC APPEAL** Our playgrounds don't just function—they look great, too. Featuring modern materials and color options, they complement today's schools, churches, homes, and community spaces.
- **FULL-SERVICE, ALL-IN-ONE SOLUTION** As a full-service provider, we handle everything—from planning and design to delivery and installation—making your playground project simple and stress-free.

About King Swings

King Swings is a full-service provider of cost-effective, high-quality playground solutions tailored to the diverse needs of communities nationwide. With over 35 years of experience, we are a family-owned, founder-led company rooted in the Amish tradition of unmatched craftsmanship.

Every playground we build reflects our commitment to quality, safety, and exceptional customer service. From personalized consultations and custom designs to nationwide delivery and professional installation, we make the entire process simple, smooth, and built to last.

Our headquarters in Chester County, Pennsylvania, spans 70 acres of scenic farmland—home to our CEO, Elmer King, and the heart of our family-run operation.

Play Your Way:

Commercial Pro & Flex

At King Swings, we’re your full-service partner for all things play. We offer complete playground solutions made in the USA, from high-quality equipment and surfacing to dog parks, accessories, and site furnishings.

With our Play Your Way approach, you can choose between Commercial Flex for customizable, budget-friendly designs and Commercial Pro for ASTM-certified playgrounds for public settings.

How to Order

SIMPLE PROCESS,
PERSONALIZED GUIDANCE

At King Swings Commercial, we streamline the playground planning process, making it easy for your organization to move forward confidently. From the first call to the final installation, our team provides personalized support every step of the way.

- **FAMILIARIZE - BROWSE OUR OPTIONS:**
View our collection online and in our catalog, read downloadable PDFs, and watch videos.
- **CONTACT US:** Get in touch with our playground experts for questions, quotes, and expert advice.
- **PURCHASE - PLACE YOUR ORDER:**
Finalize your choice and secure the order with a deposit.
- **PREPARE THE SITE:** Follow our preparation guidelines to ensure the site is ready.
- **ENJOY A PROFESSIONAL SETUP:**
Our in-house specialists deliver and install the surfacing and playground equipment.

PRO

Commercial Pro

Built to ASTM Codes and Standards
Suitable For: Public parks, schools, day-care centers, and municipalities requiring fully compliant structures.

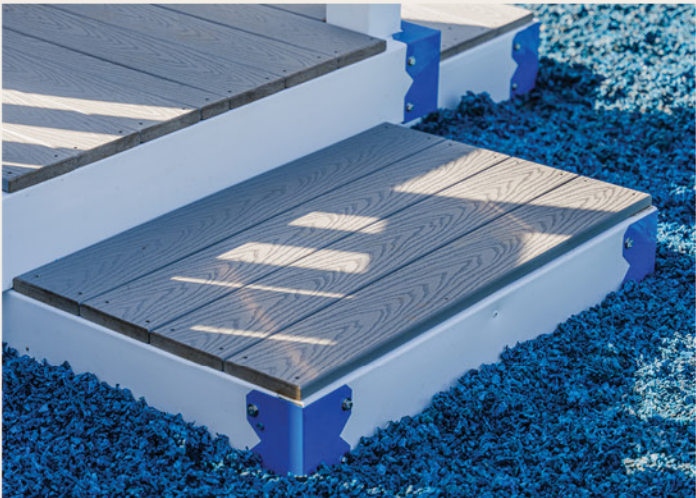

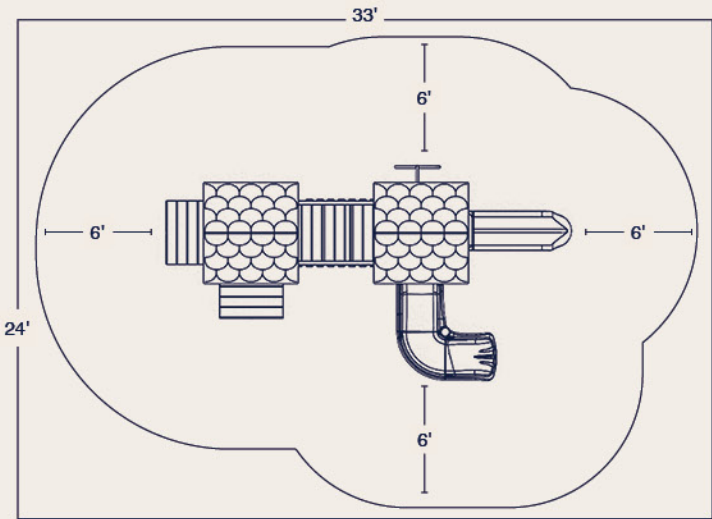

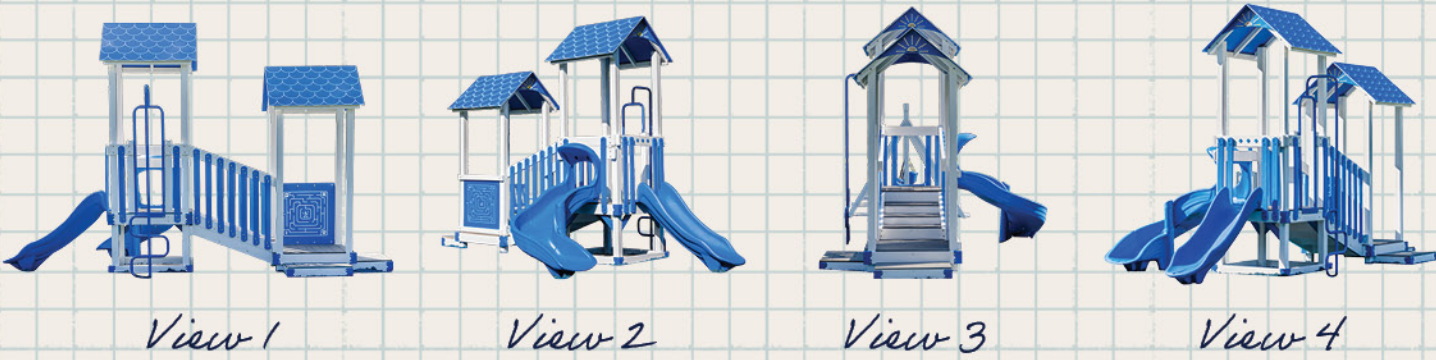

- Meets ASTM 1487 and CPSC standards for public playgrounds
- Built to withstand high-traffic public use while maintaining King Swings' signature craftsmanship and design
- Cost-effective turnkey solution for municipalities and institutions
- Limited Customization for ASTM compliance
- Nationwide delivery and installation with our in-house crews

Pioneer

COMMERCIAL PRO

The pioneer playground is geared for children two to five years old. This playground is low and inviting, making it very accessible for smaller children.

Did you know?

Our Commercial Pro Series is designed by our in-house certified playground safety inspector

Trailblazer

COMMERCIAL PRO

The Trail Blazer Playground was designed for children ages 2-5. The shorter deck heights provide fun play scaled down to the children’s size, while the spacious decks make it easy to see the children at play.

COMMERCIAL PRO PLAYGROUND PACKAGES

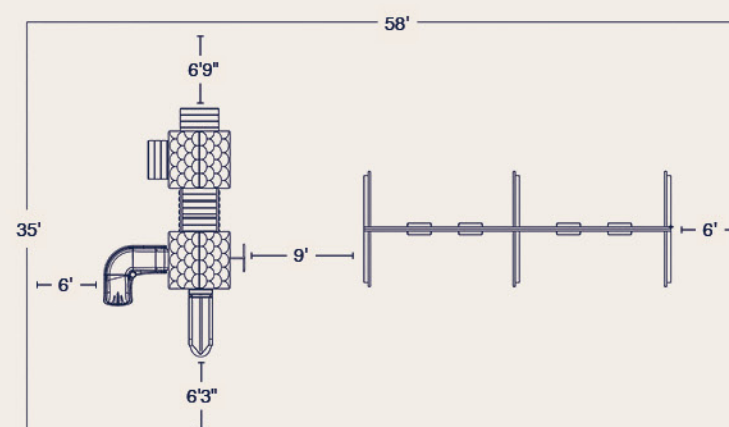

Small Playground Packages

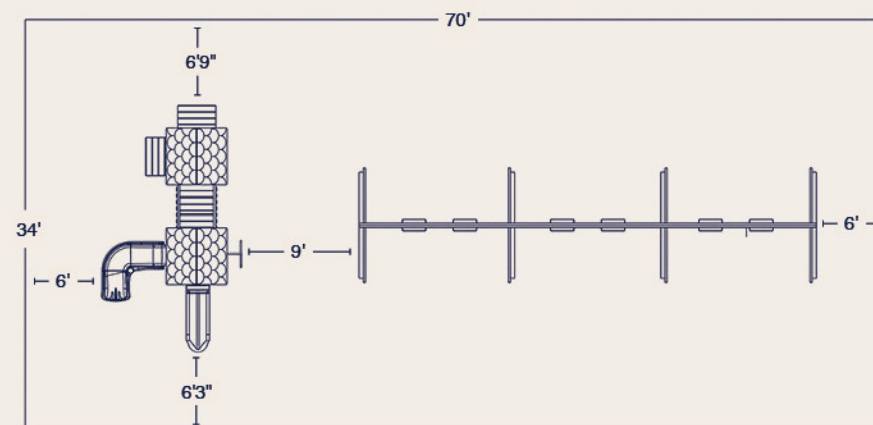

SMALL PACKAGE 1

- This configuration includes our Pioneer playground and two toddler swings.
- The package includes our weed guard, rubber mulch, and play zone border.

SMALL PACKAGE 2

- This configuration includes our Pioneer playground, two belt swings, and two toddler swings.
- The package includes our weed guard, rubber mulch, and play zone border.

SMALL PACKAGE 3

- This configuration includes our Pioneer playground, four belt swings, and two toddler swings.
- The package includes our weed guard, rubber mulch, and play zone border. This is an example layout.

THESE ARE EXAMPLE LAYOUTS. IF YOU NEED TO MOVE EITHER THE SWING BEAMS OR THE PLAYGROUND, THE DIMENSIONS WILL CHANGE, THUS CHANGING THE TOTAL COST TO ACCOMMODATE THE SMALLER OR LARGER DIMENSIONS.

King Swings Commercial offers playgrounds and swing beams bundled together as customizable packages. A package refers to any combination of playground(s) and swing beam(s) —regardless of layout.

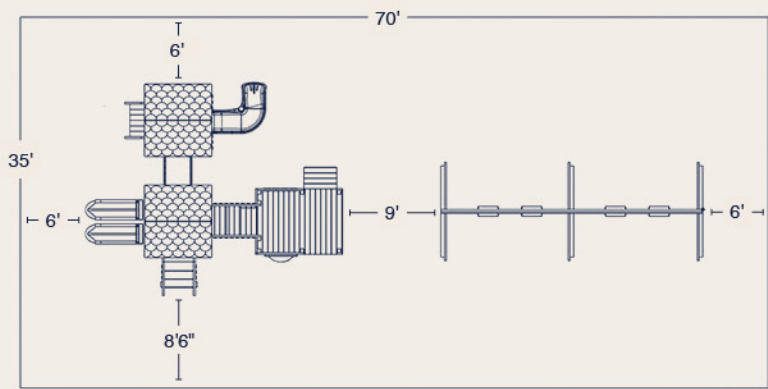

Packages take the guesswork out of playground planning. You get a complete, ready-to-install play area without spending time to assemble a complete playground with various providers. With our packages, you enjoy the convenience of a complete solution, the confidence of a well-designed setup, and the flexibility to customize based on your space and budget.

While the possibilities are unlimited, we've included a selection of suggested packages and layouts below to help you get started.

Swing Beams

King Swings offers high-quality swing beams designed to fit a variety of playground projects, layouts, and requirements. Whether working with commercial codes or designing for a flexible setting, we provide multiple swing beam options—all built to the same high durability standards, safety, and craftsmanship.

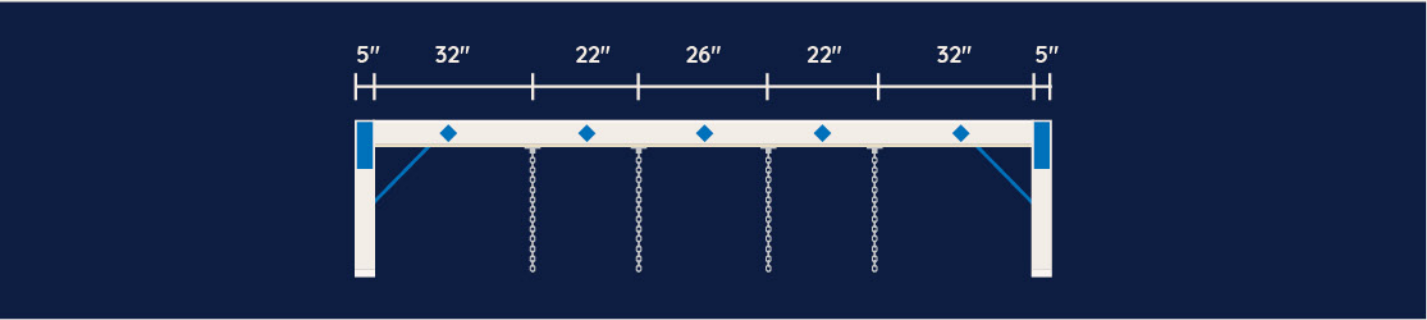

Our free-standing swing beams come in two-position increments, allowing you to customize your setup based on your space and the number of swings needed.

FREE-STANDING: Anchored into the ground and freestanding from the main play structure, these swing beams are designed to meet public safety codes and standards (ASTM/CPSC). This configuration ensures proper use zones and is ideal for parks, schools, churches, and other public settings. This swing beam is available as an option for both our Commercial Pro and Commercial Flex Lines; however, it is the only swing beam option offered with the Commercial Pro Line.

ATTACHED: In settings where use zones are not required, swing beams can be securely attached to the main play structure and anchored into the ground. This setup allows for more compact playground layouts without compromising build quality or safety—perfect for private communities, daycares, and backyard-style public spaces. This type of swing beam is only available for our Commercial Flex line.

SWING BEAMS		
SPECIFICATIONS	Length & Width	12'x9'
	Total Height	8'
	Combined Use Zone on Both Sides	6' Each Side
	Combined Use Zone on Front and Back	16' Each Side
	Age Range	3-12
	Weight Limit	225 lbs
	Swing Size	12"x24"
	Chain Length	64"
	Max Fall Height	8'

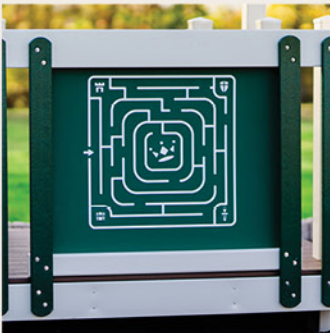

SPECIFICATIONS FOR USE ZONE

The required **USE ZONE** for all swing beams' front and back is 16'. The use zone is measured from the center of the swing beam and extends 16' in both directions for a total of 32'. The required use zone from the sides of the swing beam is 6'.

The **USE ZONE** on the sides of the swing beams can be considered a combined use zone. This means you may combine the use zones of other items with the side of the swing beam as long as the total use zone is 6'.

Customizing COMMERCIAL FLEX

Based on your playground needs, we offer many options and ways to customize these categories below. Visit our website to explore all our options.

FUN ACCESSORIES

Maze Panels. Binoculars, Steering wheels, games and more. We have many fun accessories ready to add to your playground

CLIMBERS

We have a great selection of climbers. From easy Staircases to challenging Rock Walls and Monkey Bars

SLIDES

We provide many options of high quality slides for multiple deck heights and experiences.

SWINGS

We offer multiple swing options that are great for all ages and fun rides.

CONNECTORS

Tunnels, Wobbly Bridges, and solid bridges. Choose how you want to connect your play areas.

SENSORY TOYS

Whether tapping out a tune on our drum kits or chimes, our musical toys are a great addition to any playground!

Furniture

From comfortable adirondack chairs to trash bins, we offer attractive furniture & site furnishing options to accompany your playground.

ADIRONDACK CHAIRS

The resilient polyboard material withstands heat, cold, snow, ice, and sunlight. Youth and Adult Sizes.

POLY PARK BENCH

With many colors to choose from, they make a great addition to your commercial playground.

PICNIC TABLES

A durable resting place for a snack. Available in two sizes.

END TABLE

The perfect addition to your outdoor furniture resting area.

ACCESS RAMPS

Made from poly lumber, our ramp is attractive, weather resistant, and sturdy.

TRASH BINS

A great add-on to your commercial playground. They help keep the trash where it belongs and make it look good while doing it!

Dog Park Equipment

King Swings' commercial dog park equipment is made in the USA and delivered and installed on-site. Ideal for doggy daycares, HOA parks, municipal spaces, and businesses looking to provide a designated area for pets, our dog park solutions are durable, functional, and built to last.

Our dog parks follow a build-your-own model. While we offer a suggested layout as a starting point, you can choose the components that best fit your space and needs.

COMPLETE PARK

Commercial Dog Park A is an example dog park that you can order as-is or customize by subtracting pieces, changing colors, and changing the layout. Our outdoor dog park agility equipment creates the perfect place for the dogs under your care or the families in your neighborhood to run, play, and get healthy socialization.

This Commercial Dog Park includes: Dog House, 3' Crawl Tunnel, 4'x4' Platform, Jump Thru Agility Hoop – Large, Jump Thru Agility Hoop – Small, Sit-Speak-Stay Stands, Dog Park Ramp.

3' CRAWL TUNNEL

Whether your dog is pretending he is crawling through a burrow deep in the mountains or just having fun chasing a friend, our commercial dog park 3' crawl tunnel is a great part of your dog park.

Made from rotationally molded plastic, the tunnel is gentle on paws, durable, and fun! It's a perfect part of your commercial dog park equipment.

DIMENSIONS: 3' LONG, 3' WIDE

DOG HOUSE

Our commercial dog park dog house provides a shady place for our furry friends to relax and catch their breath. The vinyl and polyboard construction creates a smooth, paw-friendly surface, while the plastic roof shades the occupants. The dog house is a great addition to your dog park!

DIMENSIONS: 53" LONG, 59" WIDE, 57" HIGH

RAMP

The commercial dog park ramp provides a fun agility challenge for dogs of any size! Our materials are gentle on paws and perfect for your dog park. The ramp provides great exercise for our furry friends as they charge up and down the slope. Your dog will have a blast playing on this ramp.

DIMENSIONS: 140" LONG, 30" HIGH, 20" WIDE

PLATFORM

Our dog park platform provides ample space for our best friends to jump and have a bit of rest from their play. We use Trex™ decking, creating a paw-friendly finish that will not splinter or crack. The dog park platform is a fun part of your dog park equipment, helping the littlest dog get eye-to-eye with its bigger friends!

DIMENSIONS: 4' WIDE BY 4' LONG.

JUMP-THRU AGILITY HOOPS

Whether Fido is a German shepherd or a miniature schnauzer, we have a jump-thru agility hoop for him! Agility hoops are a great part of a commercial dog park and provide lots of fun for both your dog and yourself.

The inside of the hoop measures 22.5", and the outside diameter is 31". We offer two different heights, short and tall. These heights are determined by the installation team on location.

Playground Surfacing

Based on your budget and project requirements, we offer four surfacing options to meet a wide range of needs. Our team will help you select the right surface for your space, and we install all four options—making the process simple and streamlined from start to finish.

RUBBER MULCH

Rubber mulch is a durable, cost-effective, impact-attenuating surfacing option made from recycled rubber tires. Unlike traditional mulch, it won't rot, compact, or biodegrade—making it a long-lasting solution with minimal maintenance.

This surface can typically be installed in a single day and offers excellent fall protection at a lower cost than wood chips. To meet ASTM and IPEMA safety standards, our playgrounds need 6" of uncompressed rubber mulch.

- **12-YEAR COLOR GUARANTEE:** Backed by the manufacturer to maintain color over time
- **LOW MAINTENANCE:** No need for frequent topping-off or replacement
- **INSECT-RESISTANT:** Rubber nuggets do not attract bugs or pests

WOOD MULCH

Certified wood mulch—know as engineered wood fiber—is a natural, impact-attenuating surface that meets ASTM and/or IPEMA safety standards when installed and maintained properly. This surface is popular for public playgrounds seeking an organic look and feel at a lower upfront cost.

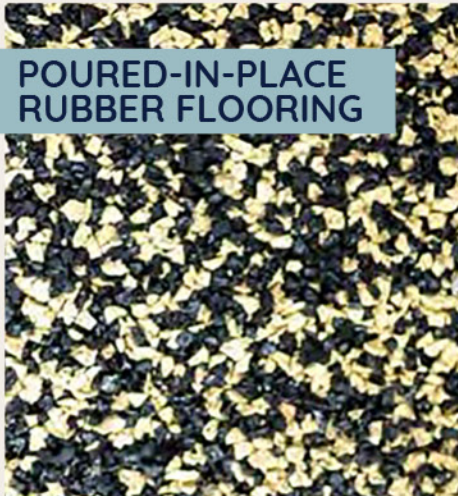

To meet ASTM and/or IPEMA standards, our playgrounds need 12" of uncompressed wood chips.

- **STANDARDS-COMPLIANT:** When installed at the proper depth, wood mulch meets safety requirements for public playgrounds.
- **NATURAL APPEARANCE:** Blends well with parks, schools, and community spaces
- **ONGOING MAINTENANCE:** Requires regular raking, replenishing, and monitoring to maintain safety compliance and even coverage

Playground Surfacing

continued

Selecting the right surface is integral to any commercial playground project. **IMPACT ATTENUATION**—how a surface cushions a fall—is important when planning for safety and compliance. In addition, surfacing supports proper drainage, helping to keep play areas clean, dry, and easier to maintain over time.

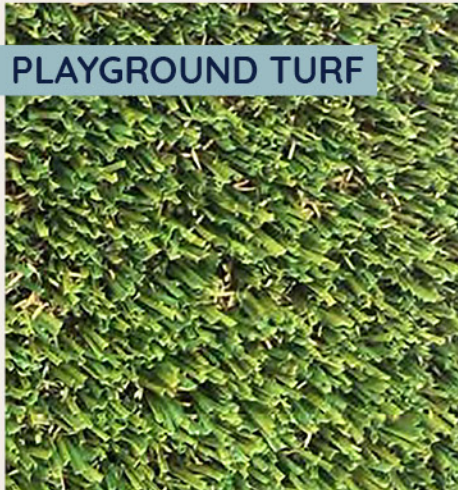

POURED-IN-PLACE RUBBER FLOORING

Poured-in-place (PIP) rubber is a premium, low-maintenance playground surfacing known for its durability, safety, and polished appearance. As the gold standard for impact attenuation, PIP is ideal for high-traffic, public play areas where long-term performance and accessibility are essential.

This unitary surface consists of a shock-absorbing base made from recycled rubber mulch and a bonded EPDM top layer that can be customized with various colors and designs.

- **SUPERIOR SAFETY:** Industry-leading impact attenuation
- **CUSTOMIZABLE DESIGN:** Endless color options and fun patterns for added visual appeal
- **LOW MAINTENANCE:** Seamless, durable, and easy to clean
- **HIGH PERCEIVED VALUE:** Attractive, accessible surface for public spaces

PLAYGROUND TURF

Turf is a premium playground surfacing option that offers the natural look of grass with the safety and durability of modern materials. Made from anti-microbial and anti-static yarn, turf creates a clean, soft, and safe environment for play.

Beneath the surface, a foam padding layer provides excellent impact attenuation, making it visually appealing and safety-compliant.

- **NATURAL AESTHETIC:** Looks like grass, with no mud or mowing
- **SAFE & CLEAN:** Anti-microbial and anti-static materials for cleaner play
- **EXCELLENT FALL PROTECTION:** Foam pad underlayer cushions falls
- **LOW MAINTENANCE:** Resilient surface that holds up under frequent use

Frequently Asked Questions

Q1: What certifications do your Commercial Pro playgrounds meet?

Our Pro Line playgrounds meet ASTM and CPSC safety standards. Ask us about specific sets that meet ADA accessibility requirements.

Q2: Does my playground need to be built to codes?

This depends on your location and oversight bodies. Check with local ordinances, insurance providers, or any governing agencies. If inspections are required, you'll need a playground from our Commercial Pro line, which is built to ASTM-certified standards.

Q3: Why choose a vinyl playground?

Vinyl playgrounds are durable, weather-resistant, and typically more cost-effective than metal options. They don't rust and feature a modern look that complements today's construction styles of churches, HOAs, schools, campgrounds, and more.

Q4: How is the playground anchored into the ground?

We secure towers and swing beams with large landscape spikes to anchor them into the ground. We do not cement the playground into the ground.

Q5: How does delivery and installation work?

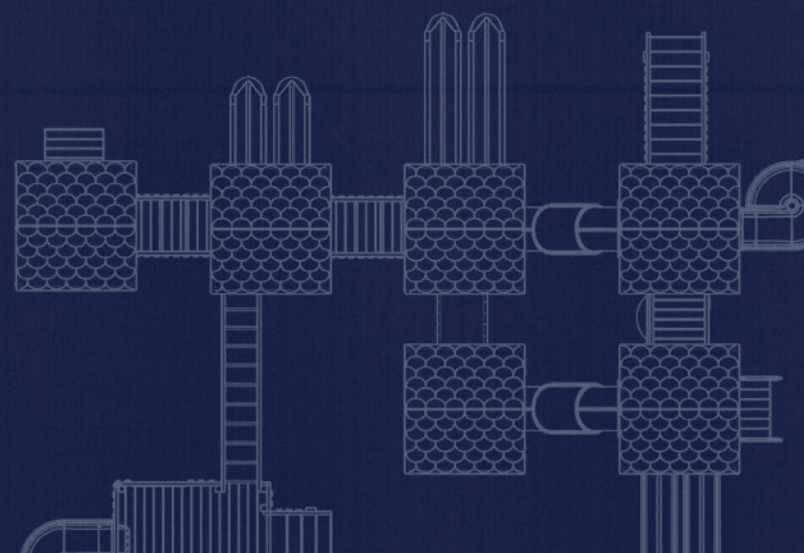

After you place your deposit, your project is assigned to our scheduling team. We'll confirm an installation date with your project manager. Once your site is ready, our crew will deliver and professionally install your playground.

Q6: Does King Swings offer sensory play?

We do! Ask about our maze panels, musical instruments, and accessories to provide mentally stimulating and sensory-rich play experiences.

Q7: Can you build a custom commercial playground?

Yes—our Flex Line allows for complete customization and is ideal for spaces that don't require code compliance. Our Pro Line offers limited customization to ensure every component meets strict ASTM safety standards.

Delivery & Installation

King Swings offers nationwide delivery and professional installation for all commercial playground orders. Once your order is confirmed, our scheduling team will receive your project details, including drawings, photos, and access notes, to begin planning your delivery.

WHAT WE NEED FROM YOU BEFORE DELIVERY:

- An onsite contact (project manager, property manager, or other decision-maker)
- Photos showing the site is fully prepared and ready for installation
- Confirmation of an access path for equipment and crew
- Office hours for site managers or point of contact

WHAT TO EXPECT ON DELIVERY DAY:

- You will receive a tracking link that activates the morning of your delivery. This link will allow you to follow our crew's route in real time.
- A site manager must be present to confirm final placement and orientation.
- Our crew will install the playground on your prepared site.
- Installation time varies depending on playground size, surfacing choice, and site accessibility.
- **SURFACING INSTALLATION:** Rubber mulch and wood chip surfacing are typically installed in one day. Poured-in-place rubber flooring is weather-dependent and requires a separate installation date to ensure proper curing and performance.
- **FINAL PAYMENT:** The final balance is due at the time of installation.

ALL PLAY

by King Swings

Inclusive Swing Sets & Playgrounds

At King Swings, we believe in the power of play to bring kids, families, and communities together. **ALL PLAY** options are available as customizable features or part of complete package layouts, making it easy to design a playground that's both accessible and engaging. We're committed to ensuring children of varying abilities can play side by side.

Whether you're creating a standalone inclusive swing set or incorporating accessible elements into a larger playground, our high safety standards and premium materials ensure that every space we build fosters connection, creativity, and active play.

- **ADA SOLUTIONS:** Options that provide access for children of all abilities. Depending on your site and needs, some features may be ADA accessible even if not fully ADA-compliant.
- **COMMUNICATION BOARDS:** Tools to help children engage, express themselves, and participate in play.
- **MUSICAL INSTRUMENTS:** Promote creativity, rhythm, and sensory stimulation through sound.
- **ACTIVITY PANELS:** Interactive elements that encourage exploration and mental engagement.
- **VARIETY OF SWINGS:** Inclusive swing options that support different physical and sensory needs.
- **HIGH SWING BEAMS:** Designed to provide a broader range of motion and movement for all children.

Plan Your Playground *with* Confidence

Whether you're ready to move forward or still have a few questions, our team is here to help. From design to delivery, we make the playground process simple, efficient, and built to last.

- Personalized guidance from our knowledgeable team
- Nationwide delivery and professional installation
- High-quality, American-made equipment and surfacing
- Flexible options to meet your budget and compliance needs
